

STOCKED AIR PREPARATION ASSEMBLIES

FILTER REGULATOR W/ LOCKABLE VALVE

On-off valve with integrated filter regulator, offering a pressure range of 0.5 to 12 bar and a filtration efficiency of 40 µm. It features a durable plastic bowl equipped with a protective plastic bowl guard for added safety and longevity. The unit includes a manual condensate drain for easy maintenance and is designed with a lockable rotary knob for secure and precise adjustments. *Mounting hardware included.*

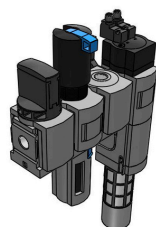

- APREP-4-001
- APREP-4-003
- APREP-6-001
- APREP-6-004

AIR PREPARATION COMBINATION UNIT

Air preparation system features on-off valve, filter regulator, 0.5 to 12 bar, 40 µm, plastic bowl with guard, manual condensate drain, lockable rotary knob, 24 VDC electric on/off valve, DIN-C connector, with silencer. *Mounting hardware included.*

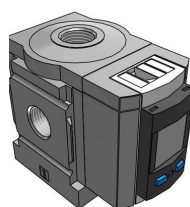

- APREP-4-002
- APREP-4-004
- APREP-6-002
- APREP-6-005

AIR PREPARATION COMBINATION UNIT

Air preparation system with on-off valve, filter regulator, 0.5 to 12bar, 40µm, plastic bowl & guard, manual drain, lockable knob, branching module, soft-start/quick exhaust valve, pLD, cat3, 2-ch, 24VDC, silencer, gauge, 2 SMT switches with M12 connectors. *Mounting hardware included.*

- APREP-6-003
- APREP-6-006

BRANCHING MODULE

Branching Module and AD11 pressure sensor with LCD display, M12 plug, 4-pin, IOLink®, PNP, NPN, 0...10 V, 1...5 V, 4...20 mA.

- MS4N-FRM-1/4-AD11
- MS4-FRM-1/4-AD11
- MS6N-FRM-1/2-AD11
- MS6-FRM-1/2-AD11
